

FREE Home or Business Security Survey

PROJECT BACKGROUND:

In 2014, the Town initiated the Crime Prevention and Education Program with the objective of the reducing instances of burglary and theft by providing local residents and business owners with a free on-site Home/Business Security Survey. This survey provides residents and business owners with an assessment of general vulnerabilities of their premises and recommendations for safety improvements.

This project implements and *enhances* the Town's approved strategic goal to "distribute information cards indicating safety tips and suggest ways to make the resident's home and/or business safer".

Ask Yourself These Questions:

- Do exterior lights illuminate all entrances to your home?
- Is shrubbery kept trimmed so a burglar can't hide near windows and doors?
- Are sliding glass doors secured with auxiliary locks or pinned, and are screws in the track to prevent removal of doors?
- Are garage doors kept closed and locked at all times?
- Are exterior doors made of solid core construction?
- Is there a peephole viewer (180°) on the front door?
- Are your valuables marked with your Florida driver's license number and do you have a record of them with serial number, make and model?
- Do you report suspicious persons or activity in the neighborhood to the police immediately?

If you answered yes to all of the above precautions, you have greatly decreased the likelihood of your property being burglarized.

The Town of Cutler Bay Neighborhood Resource Unit is available to provide Cutler Bay Property Owners with a free home or business security survey.
