# AGING IN MIAMI-DADE COUNTY

As part of a needs assessment being conducted to inform our 2017-2019 Area Plan, the Alliance for Aging is interested in speaking with **OLDER ADULTS AND THEIR FAMILY CAREGIVERS** about what it's like to grow older in Miami-Dade County. What are the advantages and disadvantages? What kinds of services are needed to allow older adults to age in place in their own homes? How can we better support family caregivers? How "age friendly" is your community?
